Poor service
26 Aug
Walao walaoeh
I complained the Gemas Negeri Sembilan EV station was spoiled since 23rd July 2026. Until today 26th Aug 2026 the station still under "rosak" status 😔 speechless to their customer service. Every time copy paste the same answer to me. Really disappointed to hear this and suspect the ability of their technician team too
Developer Response

We sincerely apologise for the prolonged inconvenience and completely understand your frustration. The TF Value-Mart Gemas charging station is still undergoing maintenance, and our team is working hard to resolve the issue as soon as possible.At the moment, we do not have an estimated timeline for when the station will be back in operation. In the meantime, you may consider using other nearby charging stations available through the app.We truly appreciate your patience and understanding while we work on this matter.

dsf.my/2026/02/ev-users-face-tangkak-bottleneck-with-only-1-working-charger/

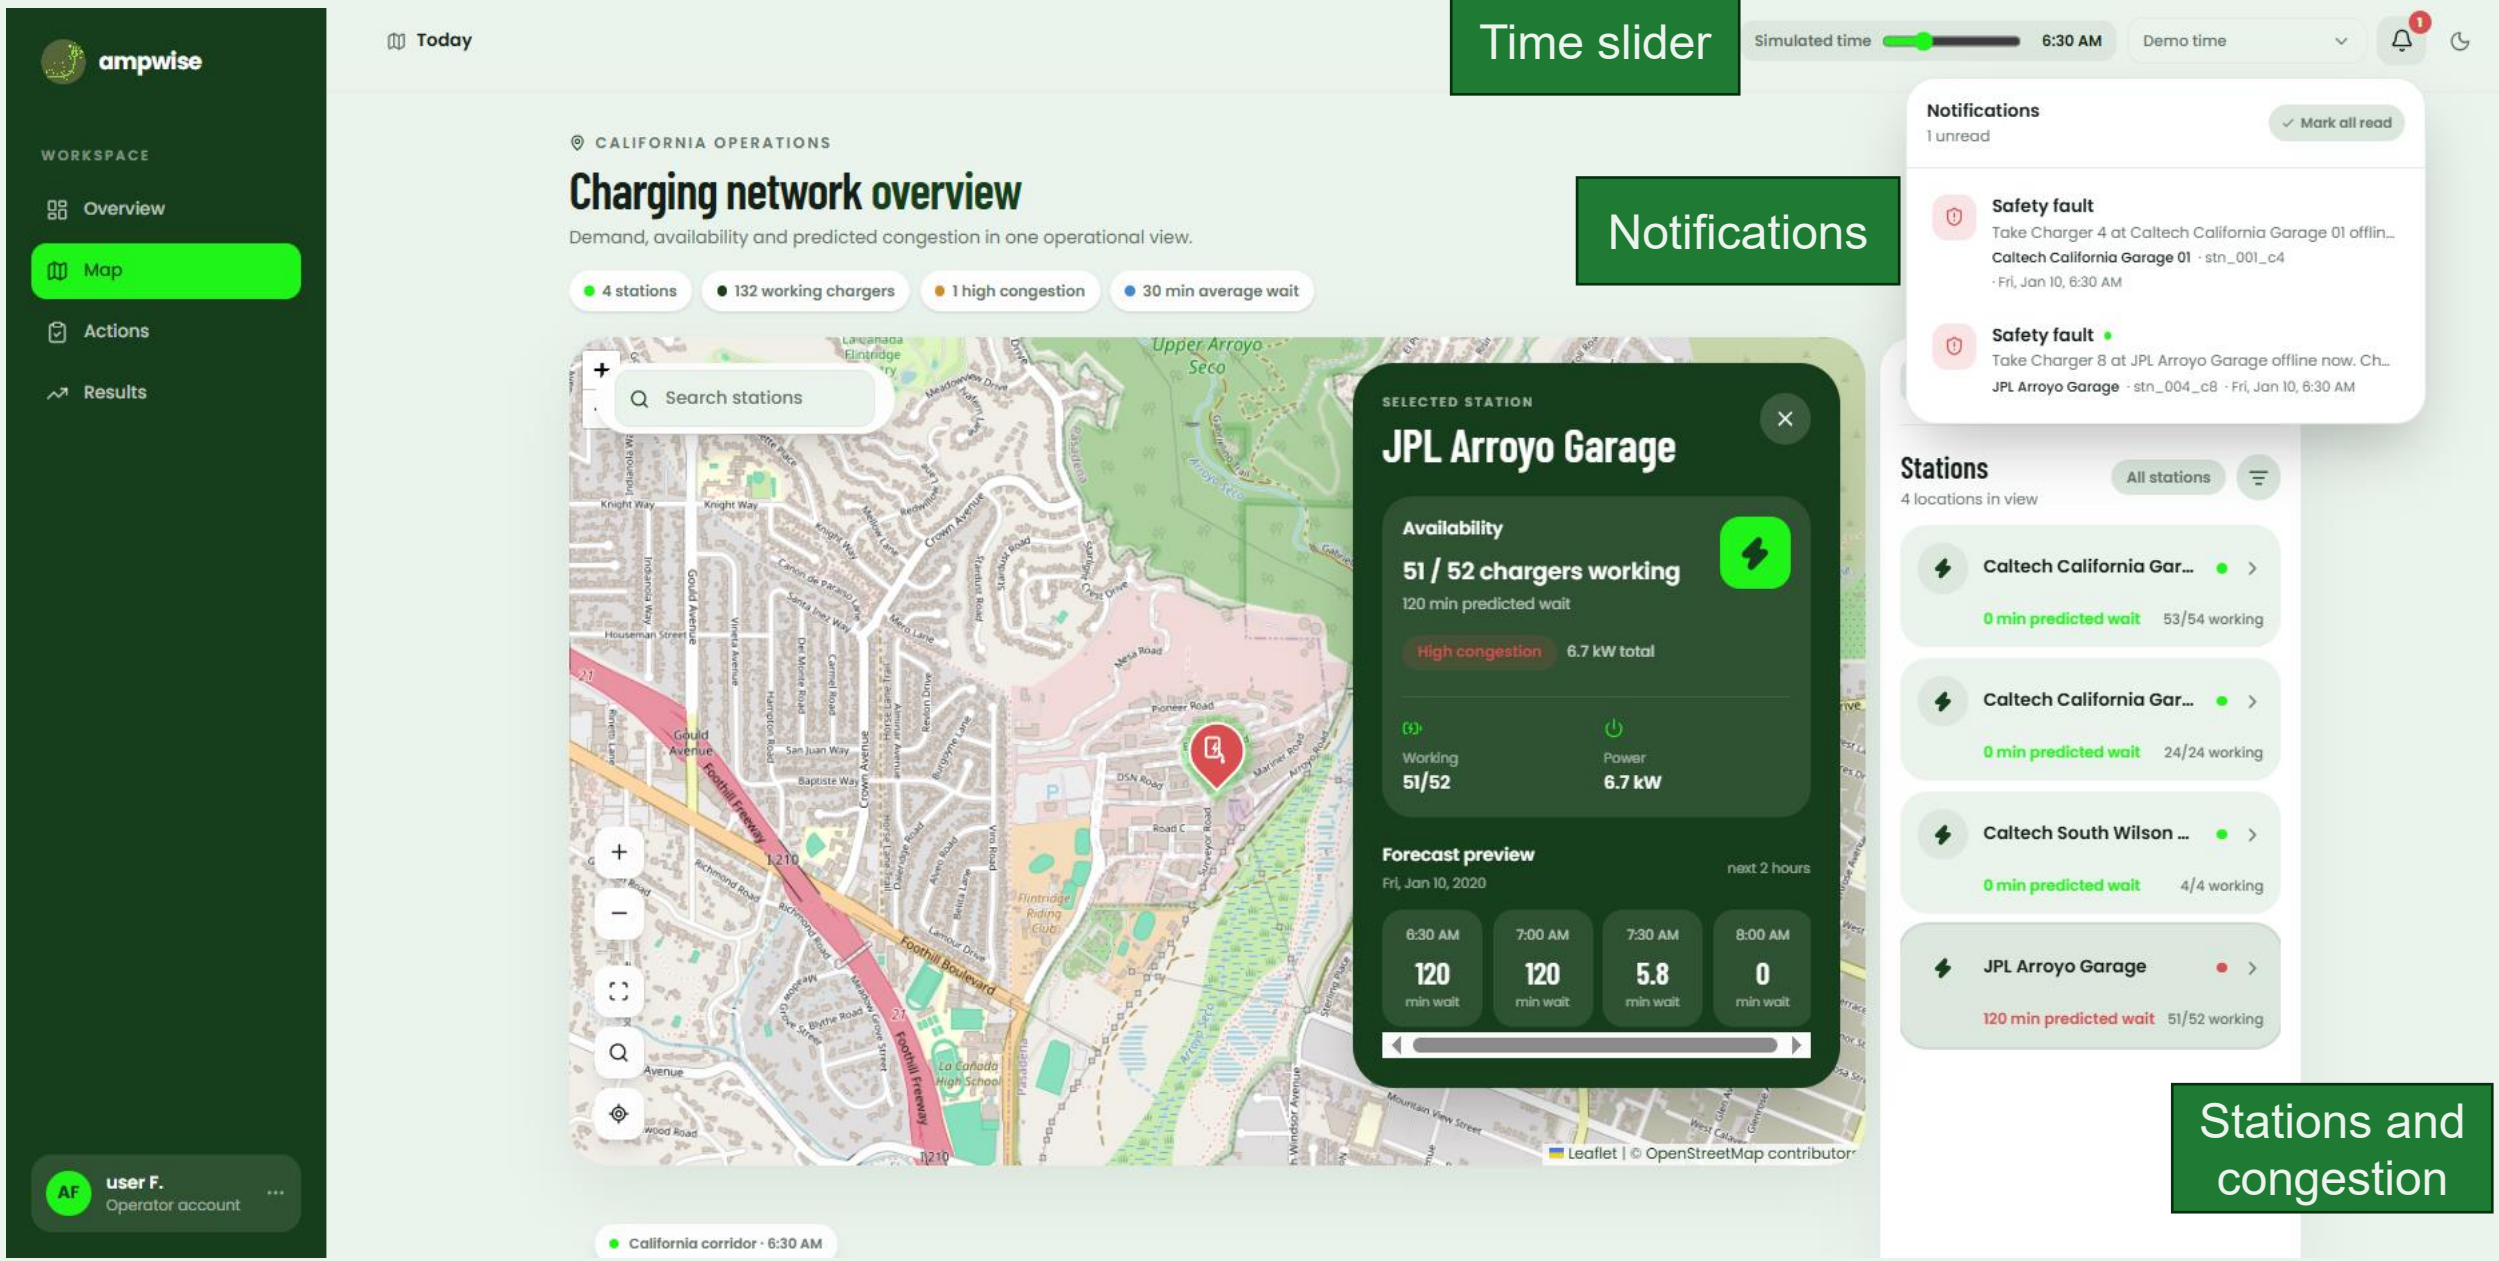

A recent image from the Tangkak chargeEV station shows just how far behind our EV charging infrastructure is in Malaysia.

California corridor · 6:30 AM

Same broken charger. Two stations.

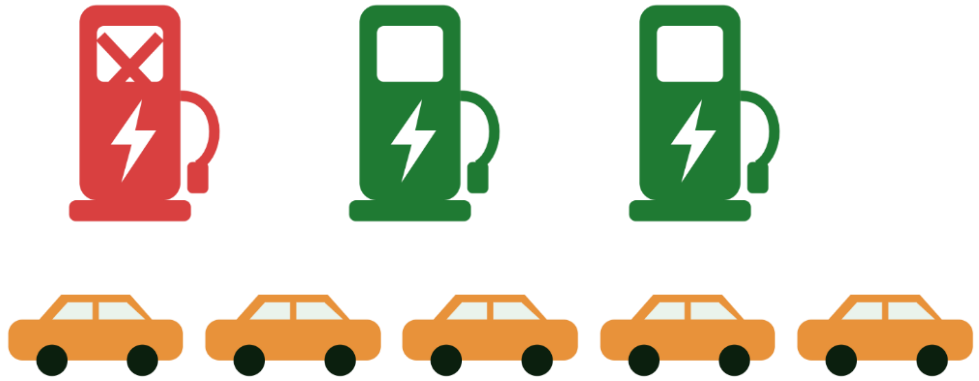

Quiet station

Few drivers affected

Action: schedule this week

Busy station, Friday evening

Many drivers turned away

Action: send a technician today

Illustrative example of how the same fault ranks differently.

Action Center

Prioritize issues. Protect charging availability.
